

## Whitworth Staff AnyConnect VPN with 64-bit Support

While using **Internet Explorer** go to the website <https://198.29.2.14>. You will have to accept the certificate to continue to the webpage:

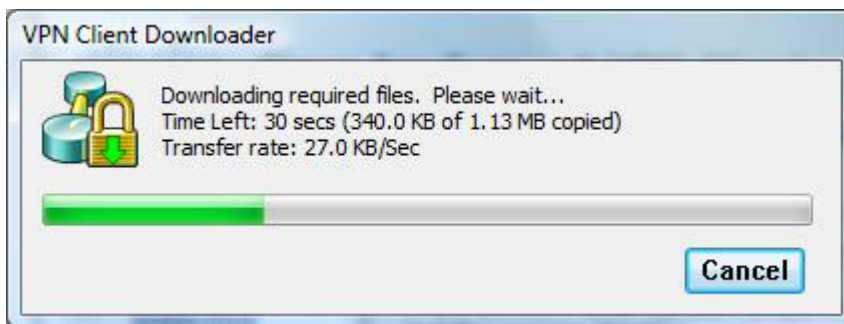

You will be prompted to login with your Network/E-mail Username and Password:

A screenshot of a web-based login form. The form has a dark grey header with the word "Login" in white. Below the header, the text "Please enter your username and password." is displayed. The form contains three input fields: "GROUP:" with a dropdown menu showing "Whitworth", "USERNAME:" with a text box containing "user", and "PASSWORD:" with a text box containing ten black dots. Below the password field is a blue "Login" button.

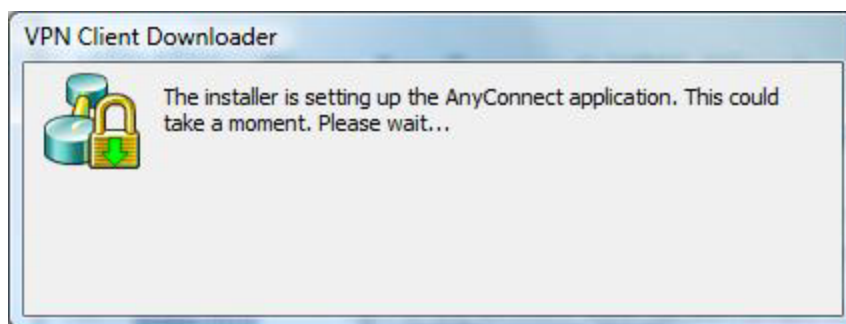

From there the download process should start and you will see the following screens:

You will get a popup stating that it is downloading the files:

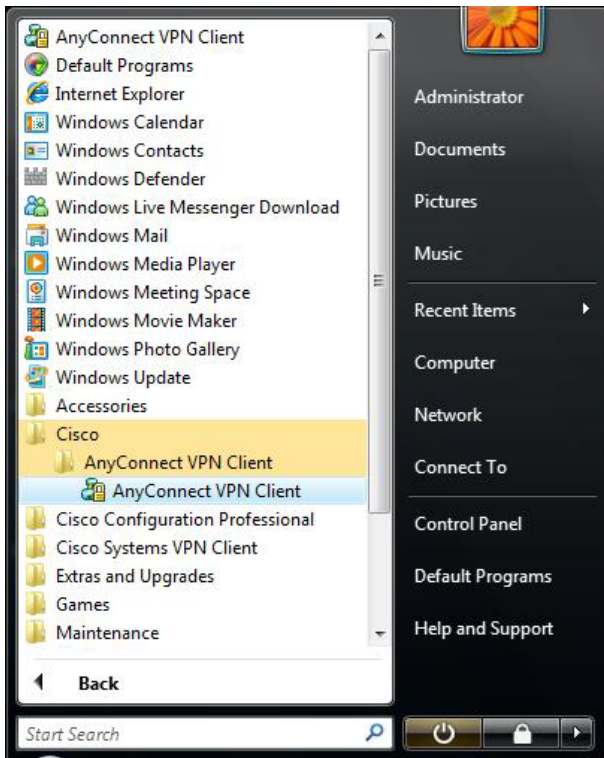

Followed by a popup stating that it may take some time to install, please be patient:

Once it is successfully installed you will be connected to the VPN:

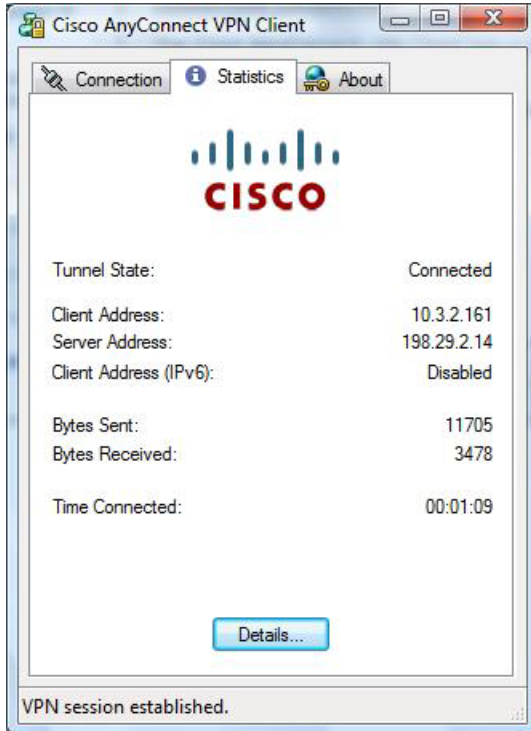

The next time you connect to the VPN please open the client by browsing to All Programs > Cisco > AnyConnect VPN Client

You will need to enter your Network/E-mail Username and Password to connect through the VPN Client:

To verify you are connected please go to the Statistics Tab and verify you have an IP address:

You are now connected to the VPN. If you have any issues installing the client or getting connected please contact the Whitworth Computer Help Desk at 509.777.3911.
