Notes:

**Students cannot receive AP credit if they're taking the equivalent course at Whitworth.**

<sup>1</sup> – Maximum credit given is 32 semester credits.

<sup>2</sup> – If a dept. name is listed, general dept. credit is given- if not, general elective credit (non departmental) is given. A course number indicates a specific course at Whitworth that has received credit.

<sup>3</sup> – HU = Humanities; FA = Fine Arts; MA = Mathematics; ML = Modern Language; NS = Natural Science; SS = Social Science.

<sup>4</sup> – If score is 5, then receive credit for either BI-140 or BI-141

<sup>5</sup> – In Chemistry, documentation of lab experience required for 4<sup>th</sup> credit. In Music, ear training required.

<sup>6</sup> – Both the Computer Science A and AB exams are in the Java Language. While fairly straight forward at that accomplished level, the student must learn C++ for further classes.

<sup>7</sup> – For completion of both Mechanics and E/M exams with a score of 4 or higher

**Note – Nursing students cannot count AP test toward any courses for a nursing major.**
