

Campus Evacuation Plan

Vehicle routes: All routes except the main campus loop road are secured with gates which will be opened when necessary. The northern most exits can be accessed through the back 40. To access the back 40 go north between Facilities and the Baldwin-Jenkins parking lot from the 4-way stop in front of Robinson. The western most exit can be accessed near the field house. The other exit is available through the church parking lot. Security or Facilities Services will unlock gates as soon as possible in the event of a campus evacuation.

Pedestrian routes: Pedestrians should use the most direct route off campus avoiding hazards and responding vehicles.
