What happens next?

Greetings new Whitworth students and parents,

We are thrilled that you have chosen to join the Whitworth community! Faculty, staff and students all over campus have been working to prepare for your arrival. Now it's time for you to begin preparing as well. In this guide you will find valuable information to help you register for classes for fall semester 2018. Please spend some time going through this guide before your registration appointment. Whitworth course registration has gone paperless, but in the next few pages you should find links to everything you'll need to be ready to register.

Here is what you can expect in the registration process over the next month:

Sometime in May you will receive an email from Whitworth Admissions. The email will provide a form for you to complete that confirms your intended major or if you are undeclared. This helps us assign the proper faculty member to help you register for classes. You will then schedule a 30-minute phone appointment with a Whitworth professor to take place a few weeks later. (Please note: If your phone number has recently changed, or if it would be easier for us to reach you at a number other than the one listed on your application, there is a section on the registration form where you can provide this information.)

Then we will send you a confirmation email and postcard. Be sure to check that the date and time of your registration appointment are correct, and that they still work for you. You will receive a reminder email the day before your appointment and the day of. If you need to reschedule your registration appointment, please contact the admissions office as soon as possible at 509.777.4786 or admissions@whitworth.edu. We would appreciate at least 48 hours' advance notice for all schedule changes and cancellations.

Registration appointments will begin the last week of May and will continue through the summer. A Whitworth professor will act as your registration advisor. This professor will call you when it's time to register, ask you some questions and help you select classes. This appointment could last about 30 minutes, so make sure you have time to sit down and focus on registration. We encourage you to prepare for your appointment by reading all of the registration information in this guide, looking at the [online course catalog](#), and searching for available classes on Pirate Port (instructions can be found on Page 11 of this guide). **You will not need access to a computer or the internet during your appointment.** Following the conclusion of your appointment, we will send you an email that provides you a link to view your schedule.

Thinking through your major

When your registration advisor calls for your appointment, one of the first questions he or she will ask is, “Are you still interested in studying _____?” We know that you may have changed your mind since you applied to Whitworth, or that you may currently be undecided. That’s OK! You will have an opportunity to declare your official major during your registration appointment, but many students will enter Whitworth undeclared and will take time to explore before they declare a major.

If you are currently considering several academic areas, be sure to let your registration advisor know what they are so that the advisor can help you plan accordingly. Telling the professor that you are thinking about biology or peace studies or art (or anything else) will allow the professor to guide you toward introductory courses in that area. You can use your first semester as a time to explore different subjects and fulfill general education requirements before you declare a major. If you do declare a major now, there will also be plenty of opportunities to change it down the line.

A note for pre-professional program students:

If you indicated interest in one of our pre-professional programs (anything starting with “pre-”) when you applied to Whitworth, you will eventually be asked to declare a major. You may decide to do this during your registration appointment or down the road. All pre-professional students will have access to advising, support and planning services throughout their time at Whitworth. Here are some popular majors for students in each program:

The infographic consists of four vertical columns, each representing a pre-professional program. Each column has a colored header and a list of associated majors below it.

- Pre-Ministry** (Red header):
 - Theology
 - Communications
 - Spanish
 - Music
- Pre-Chiropractic** (Gold header):
 - Biology
 - Chemistry
 - Biophysics
 - Health Sciences
 - Kinesiology
- Pre-Dental** (Gold header)
- Pre-Medical Technology** (Gold header)
- Pre-Medicine** (Gold header)
- Pre-Pharmacy** (Gold header)
- Pre-Physical Therapy** (Gold header)
- Pre-Veterinary** (Gold header)

- Pre-Law** (Teal header):
- Political Science
- Philosophy
- Peace Studies
- International Studies
- Pre-Engineering** (Dark Teal header):
- Engineering Dual Degree
- Physics
- Biophysics
- Computer Science
- Math

Planning your schedule

- You will need a minimum of 126 semester credits to graduate from Whitworth. For most students, that means taking an average of 14-15 credits each semester, plus 4-5 credits each Jan Term. Most courses at Whitworth are worth either three or four credits, and a full-time course load is 12-17 credits. If you receive financial aid or Veterans Affairs benefits, participate in varsity athletics, or are an international student, you must be registered for at least 12 credits each semester to maintain eligibility.
- Courses for Your Academic Major:** An academic major is an approved course of study in a particular subject area. A completed major varies between 35-68 semester credits, with an average of 45 credits. For a list of majors offered at Whitworth, see the [online course catalog](#). It might be better to save some of the courses in your academic department for later, but some are great first-semester choices.
- Courses to Fulfill General Education Requirements:** All students are required to take courses in each of the 14 general education (Gen Ed) categories. The general education requirements are designed to increase your understanding and enjoyment of the world around you through balanced study of the arts, humanities, and natural and social sciences. Your registration advisor can assist you in choosing courses to meet the following general education requirements. You can also search by general education requirements on Pirate Port when you are looking up available classes.

First-Year Seminar 1 credit	Worldview Studies 12 credits	Biblical Literature (BL) 3 credits	World Language (WL) 4-8 credits
United States Diversity (AD) 3 credits	Global Perspectives (GP) 3 credits	Fine Arts (FA) 3 credits	Oral Communication (OC) 3 credits
Fitness & Wellness (FW/PE) 3 credits	Social Science (SS) 3 credits	Humanities (HU) 3 credits	Mathematics (MA) 3-4 credits
	Natural Science (NS) 3-4 credits	Written Communication (WC) 3 credits	

- GE 125, First-Year Seminar:** First-Year Seminar is a one-credit course that focuses on helping first-year students transition to college life and studies. *If you are entering Whitworth directly from high school, you must enroll in this course, even if you have attended community college or earned college credit in the past.* The instructor for your section of GE 125 will be your academic advisor for your first semester at Whitworth.

- **Core/Worldview Studies:** Core 150 (Western Civ. I) is a great course to take your first year, if possible, but no later than your second year. If you are transferring in at minimum 30 semester credits or 45 quarter credits from another college, you may not need Core 150; be sure to check with your registration advisor. You need strong reading and analytical skills for this course, as well as preparation in notetaking. If you don't feel confident in these skills, you may want to take EL 110 (Writing I) instead of Core 150 during your first semester. If you are an athlete whose season falls mainly in spring or fall, you may want to take Core 150 in your "non-sport" semester.
- **World Language:** If you have had any exposure (study away, coursework, etc.) to the language you wish to study, **you MUST take the online language placement test prior to your registration appointment.** Depending on your current proficiency, the world language requirement may require up to two semesters of coursework. Regardless, it is strongly recommended that you take care of this requirement during your first year at Whitworth to capitalize on your past work. Whitworth's general education requirement for world language states that:

Students must demonstrate proficiency through the first-year level. They may accomplish this by passing a proficiency exam in the language, completing the 101-102 sequence in a language, or completing a one-semester intensive course (e.g., SN 111 or FR 111).

You won't need to take the proficiency exam if...

- you have never taken a foreign language.
- you have taken a foreign language, but you wish to study a different language in college.
- you have taken a language other than Spanish, German, French or Russian, and you wish to test out of the language requirement by demonstrating your proficiency on an outside exam (AP, CLEP, etc.).

World language placement exams are available in French, German and Spanish. If you have experience in any of these languages and you wish to continue at Whitworth, follow these instructions to take your language placement exam:

1. Go to the [World Languages & Cultures department website here](#).
2. Click the "Language Placement Exams" link on the left side of the page.
3. Follow the instructions, making note of the password listed.
4. Select the language in which you choose to take the exam. Don't worry now about your I.D. number.
5. After you complete the exam, write down your score and the name of the course for which it tells you to register.
6. Tell your registration advisor your score and the course for which you were told to register.

If you wish to test out of the language requirement, you must take a *proctored* language exam on campus in the fall. In August, you will receive an orientation brochure that will include the schedule for on-campus computerized placement exams in French, German, Spanish and Russian (placement exams in Russian are intended for speakers of Russian who plan to test out of the language requirement, though courses in Russian are not currently offered at Whitworth).

Contact the World Languages & Cultures department at wlc@whitworth.edu for more information.

- **Mathematics:** If you have just completed a math course in high school, consider taking math in the fall of your freshman year to help build on your current skills. The decision regarding which math class to take should be based on the following factors:
 - Your area of study. Different majors have different required courses.
 - Your math experience. You will want to be sure that you have met the prerequisites for the course that you are considering.
 - Your math SAT/ACT score. Whitworth provides the following guidelines:

- **Natural Science:** If you are majoring in one of the sciences, you will be enrolling in many math and science classes. Students who are not majoring in math or science can fulfill their natural science requirement during Jan Term.
- **Music Ensembles and Music Lessons (open to ALL students):** Registration for these courses (unlike all others) takes place during orientation in September. Click on the links below for information to help you plan ahead. Be sure to tell the professor who is helping you register that you plan to be involved in music.
 1. [Music Ensembles](#)
 2. [Contact Music Faculty](#)
- **Associate Degrees:** If you have completed an Associate of Arts (A.A.) degree from a community college in Washington (approved by the Intercollege Relations Commission for the State of Washington), Colorado, Idaho, Oregon, Montana or an Associate of Science degree from a community college in Washington or North Idaho College (excludes AST-Track I & II), your entire degree will transfer to Whitworth as 60-64 semester credits, which will give you junior class standing. All general education requirements will be waived except First-Year Seminar, a biblical literature course, a world language (unless you have taken a full year of language at the college level or can test out of the world language requirement), and one of the three Core courses.

Looking ahead: Study away

Note: Not available for freshmen during first year at Whitworth

Planning Now for Off-Campus Study Later

An important goal at Whitworth is to equip our students to thrive as global citizens. Part of meeting that goal is encouraging our students to participate in our many off-campus programs. Planning your general education classes carefully now will help you make the most of those opportunities in the future. If you are interested in participating in study-away programs, please let the professor helping you register know about your plans during your registration phone appointment.

Opportunities

Whitworth's study-away options are listed online at www.whitworth.edu/offcampusstudies.

There are two ways to study away as a Whitworth student:

1. Participate in a faculty-led study program ([Jan Term](#) or full semester).
2. Enroll in an [exchange program](#) (through ISEP or direct exchange) and study at a foreign university.

The staff of the International Education Center is ready, willing and able to help students in planning their international study. If you would like to contact the off-campus studies office, please call Charles Tappa at 509.777.4499.

Semester-long, Faculty-led Programs

Whitworth offers full-semester study programs in the British Isles, China, France and Tanzania. If you are interested in any of these programs, please contact the [International Education Center](#) prior to beginning classes in the fall so staff can recommend general education requirements you should defer in the meantime.

Sample first-semester schedules

Sample Schedule No. 1

Course No.	Title	Credits
CO 150	Western Civilization I (Core 150)	4
PO 102	American National Politics	3
FR 101	Elementary French I	4

BI 140	General Biology I: Genes/Cells/Evolution	4
BI 140L	General Biology I: Genes/Cells/Evolution Lab	0
MA 171	Calculus I	4
CH 161	General Chemistry	3
CH 161L	General Chemistry Lab	1
EL 110	Writing I	3
GE 125	First-Year Seminar	1
	Total Credits	16

Frequently asked questions

How will I receive credit for my AP/IB exams?

Your AP and IB tests will be evaluated for credit when we receive your official score reports. Scores for AP and IB tests taken this spring will arrive at Whitworth in mid-July. If you would like to send score reports from previous tests to Whitworth, you must request that scores be sent by the testing service. The professor helping you register will ask for your scores on any tests taken so far and will help you register based upon these scores. Once we receive scores for tests you have taken this year an academic evaluator may contact you if it looks like adjustments should be made to your course schedule. For information about required scores for AP and IB credit, go to [Tests for Credit](#) on the registrar's webpage.

Will I receive credit for college courses I took during high school?

Whitworth cannot award college credit based on your high school transcript, so be sure to have the college from which you received your credits send an official transcript to Whitworth. When your registration advisor calls, please list for your advisor the college courses in which you have earned a grade of C or higher so that you won't duplicate a course here at Whitworth.

What should I do if I change my mind after I register?

You can make changes to your course schedule on Pirate Port as of July 1, but remember that by doing so you might also accidentally drop a course that is required during your first semester. Since a faculty advisor helped you choose your courses, it is usually a good idea to keep your original course schedule until you arrive on campus and have time to talk with your advisor about any changes you would like to make.

You have the first 10 days of the semester to add courses and to drop without penalty.

- Day 1-5: You can add eligible courses and drop courses using Self-Service.
- Day 6-10: You can add and drop courses with signatures from the instructor and your advisor.

If you would like to talk with someone about changing your course schedule before you arrive on campus, please contact the Whitworth Registrar's Office at registrar@whitworth.edu or 509.777.3205.

What happens if I am on the waitlist for a class and a spot becomes available?

If you have been added to the waitlist for a course and a seat becomes available, an email will be sent to your Whitworth email account notifying you of the opening. You will have 24 hours from the time that email is sent to register for your class; prior to July 2 you will need to contact the registrar's office and ask to be registered, and after July 2 you will have the ability to log into Pirate Port, go to Self-Service and register yourself for the class. If no action is taken after 24 hours, you will be removed from the waitlist and the invitation will be sent to the next eligible student.

What should I do if I am absolutely unable to register over the phone this summer?

Please email the admissions office at admissions@whitworth.edu if you have concerns about the dates and times available for registration appointments. If for some reason you will be unavailable for any phone appointment, we will do our best to arrange for you to register via email.

Accessing course schedules

If you have read through this guide and are ready to do some planning before your registration appointment, logging onto Pirate Port is your next step. Self-Service, which is a section of the Pirate Port website, will be your go-to area for looking up classes before you register each semester. You are encouraged to look up available courses a day or two before your registration appointment and to plan ahead, but your registration advisor will help you finalize your schedule. Keep in mind that courses may fill up before you register, but any class you aren't able to take your first semester will be offered again soon.

To access course schedules on Pirate Port:

1. Go to www.whitworth.edu/pirateport, or go to www.whitworth.edu and select Pirate Port from the banner across the top of the page.
2. Log in using your Whitworth username and password. This username and password were included in your Whitworth housing letter; they are the same username and password used elsewhere on the Whitworth website. If you do not remember your username or password, call the admissions office at 509.777.4786. If you receive an error message when you attempt to log in, your password may have expired. Please call or email the Whitworth Help Desk (509.777.3911 or helpdesk@whitworth.edu) and a technician will reset your password.
3. There is a Campus System box on the right side of the page. Select Self-Service from the Campus System menu.

The screenshot displays the Pirate Port website interface. On the left, there is a 'Campus' menu with options like Academic, Financial, Campus, Health & Safety, and Housing, Dining, & Parking. A callout box points to the 'Self-Service' option in the 'Campus Systems' menu on the right. The callout box contains the text: 'Select Self-Service. Self-Service gives you access to your schedules, academic evaluations, grades and much more.' The 'Campus Systems' menu includes items like Blackboard, Course Eval, Email, Forms, Passwords, Self-Service (circled in red), SharePoint, Transcripts, and WhitNet. Below the menu, there are 'Campus Announcements' and 'Master Calendar Events' sections. The 'SPAM Email Special WARNING!' announcement mentions a recent increase in phishing emails on campus. The 'Master Calendar Events' section shows events for April 18 (WCC Poetry Contest: \$50 Prize!) and April 20 (Thursday Chapel Community Worship).

Searching for Courses

Student Planning provides two easy ways to look for courses in Courses & Sections:

1. Click on a search button in the Program Evaluation tab. This will direct you to Courses & Sections and all courses that fit that search criteria.
2. Search directly by using the search for courses or search for subjects search boxes.

Searching for Courses from *Program Evaluation*

The Program Evaluation feature is a GREAT tool to track your degree requirements and progress during your time at Whitworth. Even more, you can interactively search for courses with this tool.

The screenshot shows the 'Student Planning' section of a web application. The left sidebar contains a menu with 'Program Evaluation' circled in red. A callout box with an arrow points to this menu item, containing the text: 'To search for classes, select "Program Evaluation" under Student Planning.'

If you need a particular requirement but aren't sure which classes will fulfill it, click on the **Search** button next to the requirement.
