USING I>CLICKER CLASSIC WITH

BLACKBOARD (ACADEMIC)

iClicker is an integrated polling and grading package that can be used as a stand-alone package or it can be integrated with the Blackboard Grade Center. Students and Instructors will need an i>Clicker remote to use this system. It is the officially adopted response system for Whitworth University. It works with a base found in classrooms. Each base has a frequency. Check the base in your classroom for the frequency.

How to setup i>Clicker Software for use outside of Blackboard

- 1. Using Computer or My Computer, go to the campus share (L Drive)
- 2. Select Instructional Resources
- 3. Select i>Clicker
- 4. Right click on the iclicker-7160-win folder and copy Do not run from here or else everyone may see your data and information. It may be a FERPA violation.
- 5. Paste this folder to the place where you will be running the iClicker software such as a flashdrive, a shared folder or your homedrive. This must be a place that can be reached from both the classroom and your office.
- 6. Open the iclicker-7160-win folder
- 7. Follow the instructions in the user guides. Note: This version does not contain the Blackboard integration file and therefore cannot be used with Blackboard

How to setup i>Clicker Software with Blackboard Grade Center (This is a bit different from the old version of iClicker software setup)

- 1. Make your course available in Blackboard. After the sync, you may lock it again, but Blackboard and iClicker can only sync the course if the course is available.
- 2. Using Computer or My Computer, go to the campus share (L Drive)
- 3. Select Instructional Resources
- 4. Select i>Clicker
- 5. Right click on the Blackboard-iclicker-7160-win folder and copy Do not run from here or else everyone may see your data and information. It may be a FERPA violation.
- 6. Paste the folder to the place where you will be running the iClicker software such as a flashdrive, a shared folder or your homedrive. This must be a place that can be reached from both the classroom and your office.
- 7. Open the Blackboard-iclicker-7160-win folder
- 8. Double clicker on the iClicker.exe file
- 9. Run
- 10. Select Create
- 11. Name your course
- 12. Select your course and select Open Grade Center
- 13. Select Sync Roster

Create a New Course
Course Name: Whitworth Blackboard Course
This name does not need to match the official course name in your LMS. You can always change your Course Name later in Course Settings.
Create Cancel

Whitworth University Instructional Resources created December 2017 for courses created for Jan 2018 and beyond

- 14. Type your Whitworth Username under LMS Username
- 15. Open your course in Blackboard
- 16. Select the course you are integrating with i>Clicker
- 17. Under Course Tools select i>Clicker Instructor Tools

18. Select SSO Security Key

Whitworth Bb

19. Copy the Security Key which should have a combination of letters and numbers

i>clicker SSO Security Key This installation of Blackboard is configured to use Single Sign-CMS Username: professorwhitworth Security Key: WC2w7wb0Wwww Generate a New Security Key

- 20. Go back to your iClicker setup
- 21. Paste your copied Security Key into the Security Key field
- 22. Select Save my credentials box to check it, if you do not want to copy the security key each time.
- 23. Select Settings
- 24. Select Gradebook tab
