

Getting Started with Webex

Start a Webex meeting

Access your Whitworth Webex Account:

1. Go to whitworth.webex.com.

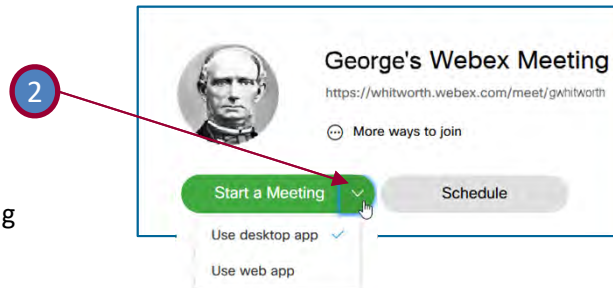

Sign in with Whitworth username and password.

2. Click **Start a Meeting**.

-First time: From down arrow, choose either:
Use desktop app OR *Use web app*.

- *Desktop app* recommended for sharing documents, slides, applications.
- *Web app* recommended for basic video conferencing, meetings, interviews.

3. In *Webex Meeting* window, use *Settings* to select which speakers, camera and microphone to use and test them to see if working.

- You can mute microphone before meeting starts

Mute

- Select which speakers, camera, mic to use.

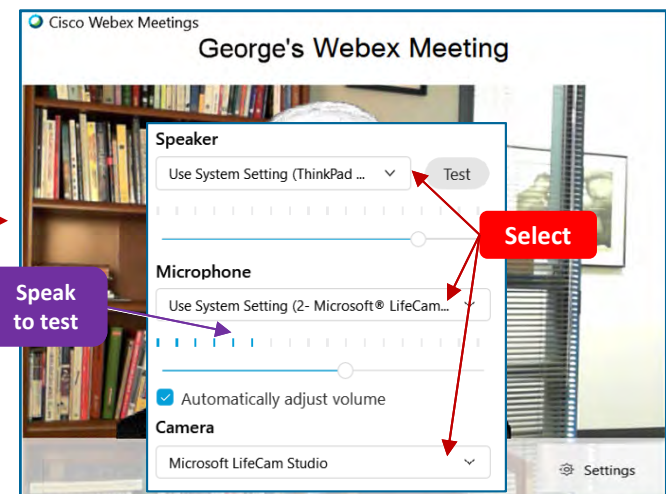

Select, test
Speakers,
camera,
+ mic

- NOTE: You may only have one camera, mic or speaker

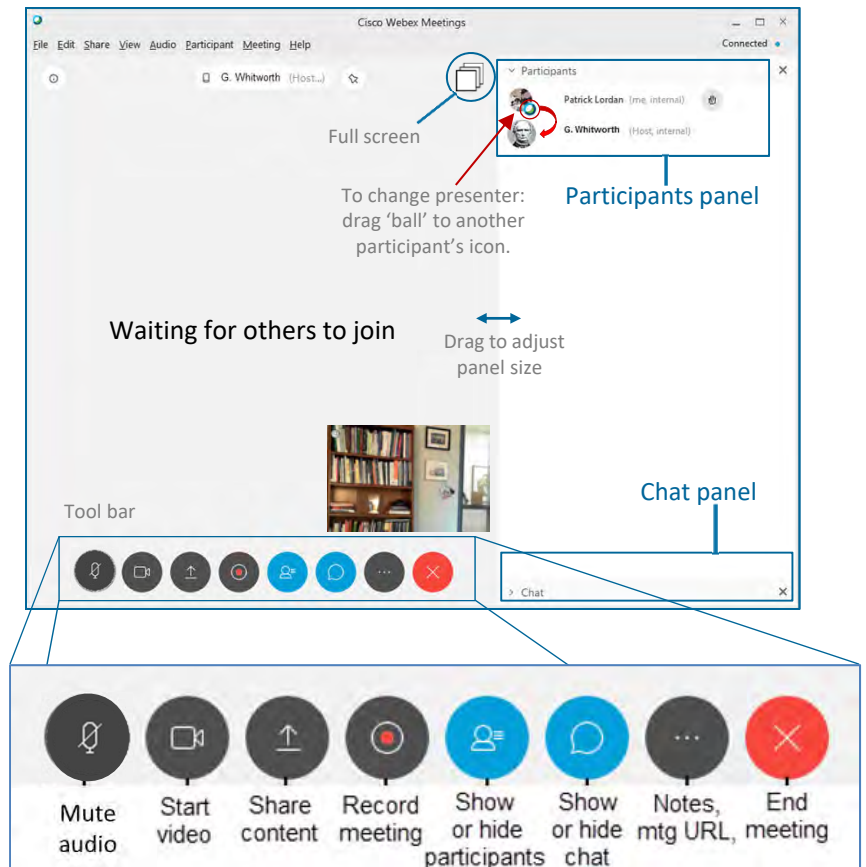

4. Ready? -> Click **Start meeting**

Start meeting

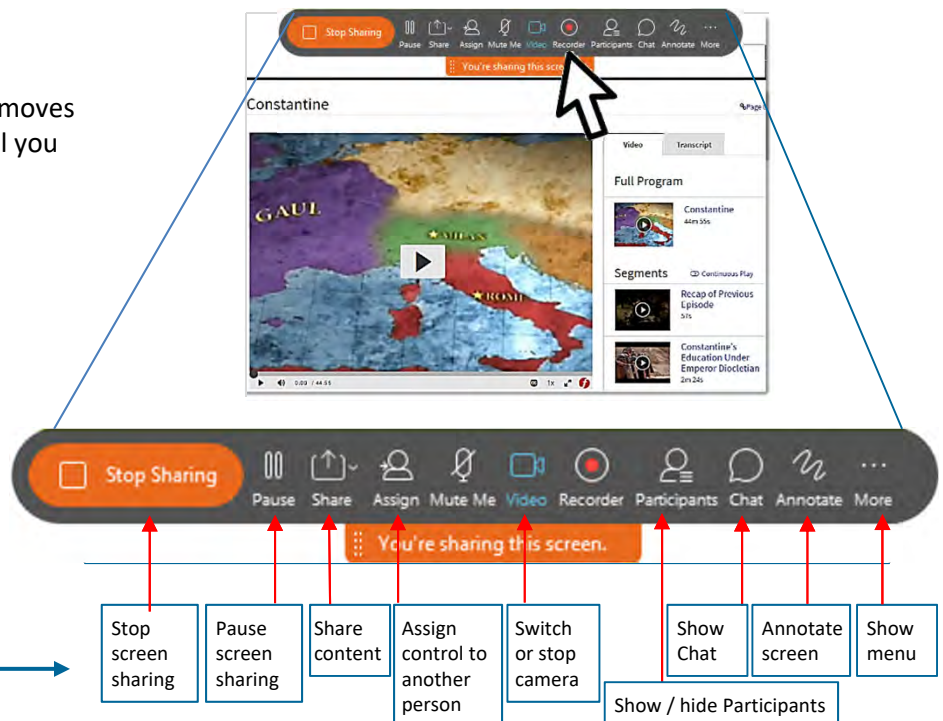

Meeting Essentials

-  **Mute:** Mutes audio going out via mic.
-  **Start video:** Click camera button to let others see you. View presenter in full-screen video by clicking  symbol in top-right corner of video panel.
-  **Share content:** Share your screen or any program, document, website, etc.
-  **Record meeting:** Record to Webex in the cloud OR to your local computer.
-  **Show/hide Participants:** Need more room on screen? Hide the meeting roster.
-  **Show/hide Chat:** Click to show/hide chat. Type in *Chat* window to send messages.
-  **Notes, copy meeting link:** Displays box for notetaking during a meeting. Copy meeting link to send out to others.
-  **End Meeting:** Click **X** to leave meeting.
-  **Change Presenter:** under *Participants*, drag-and-drop ball icon  beside a person's name to change presenters.

Full-Screen View

In **Full Screen** view, the Webex toolbar moves to top of the screen, where it hides until you roll over it with your mouse.

Toolbar button key →

Sharing/Collaboration: – Whiteboard View

The **Whiteboard** may be shared among participants to display and annotate files, brainstorm, or give presentations. (From the *Share* menu, select *Whiteboard*.)

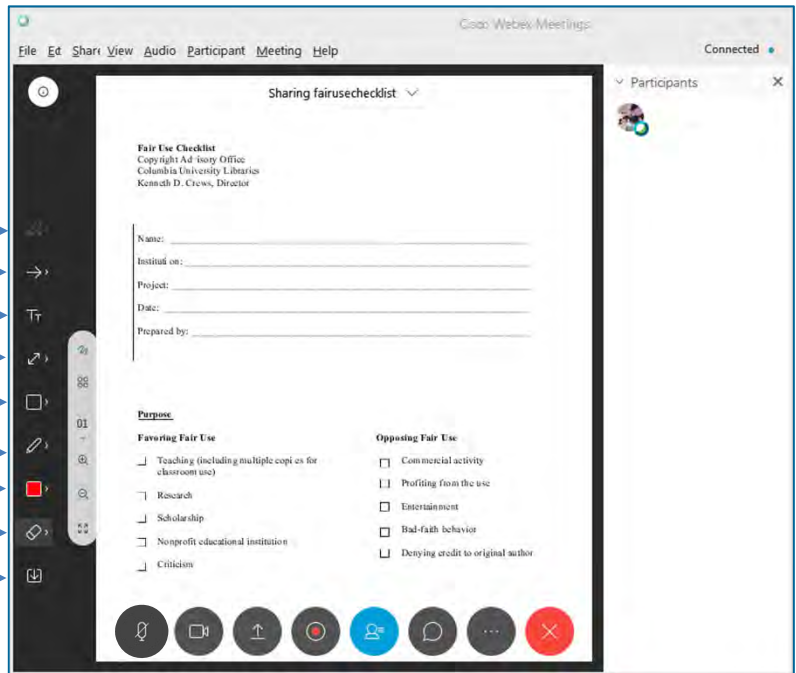

NOTE: You can share any file, app or web content using the SHARE button. You may not be able to collaborate (e.g. share mouse/screen control) in all applications.

Collaboration Tool Bar:

1. Annotate document
