Username

Password

You will then be directed to enroll in DUO for the first time and will need your cell phone with you

The image shows a Duo Security enrollment screen. At the top left is the Duo logo (a red square with a white stylized 'D'). To the right of the logo is a circular graphic containing a small image of a smartphone. Below the logo and graphic, the text reads: "Welcome to", "Duo Security" (in bold), and "Let's set up an account to protect your identity." At the bottom of the screen is a large, light blue button with the word "Next" in blue text.

The following screens will popup for general awareness of why we are using DUO. Please read them and click next

Did you know?

97% of data breaches start by stealing your identity.

[Next](#)

What can you do?

The best way to protect your identity is with two-step verification using your phone or another device.

[Next](#)

Then the enrollment process will start. Please click the DUO Mobile and enter your phone number

Select an option

You'll use this to log in with Duo. You can add another option later.

**Duo Mobile** Recommended

Logon

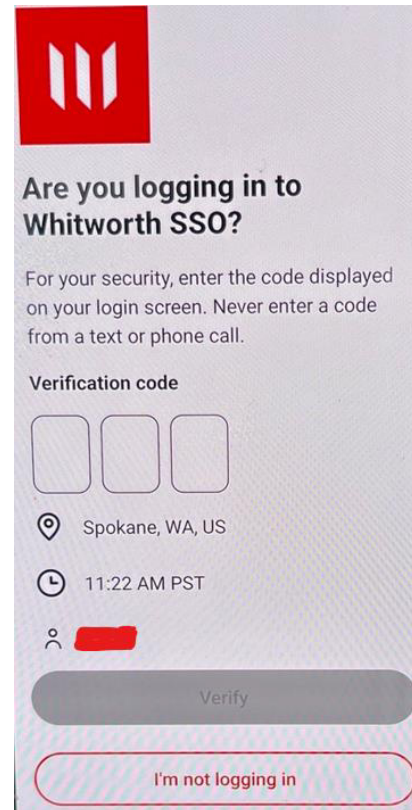

If you are already enrolled in DUO (most staff and students are) you will get the following window and a notification sent to your cell phone in your DUO app where you will need to enter the 3-digit code

Browser

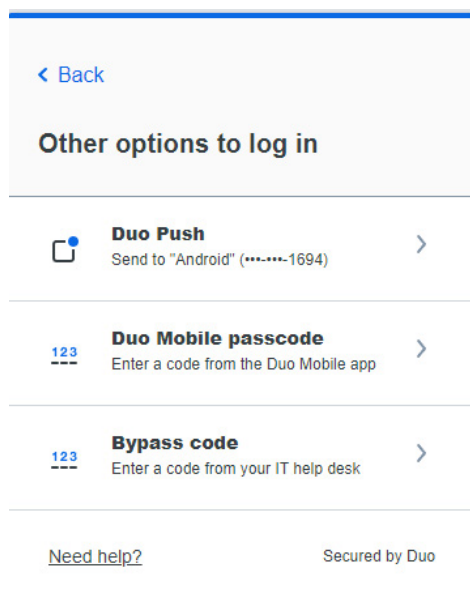

The browser interface displays the Whitworth logo at the top left. Below it, the heading "Enter code in Duo Mobile" is followed by the instruction "Verify it's you by entering this verification code in the Duo Mobile app...". A large grey box contains the code "623". Below the code, it says "Sent to 'Android' (*****-1694)" and shows a small icon of a smartphone with a Duo app notification. A link "Other options" is at the bottom. At the very bottom, there are links for "Need help?" and "Secured by Duo".

Phone

The phone interface shows the Whitworth logo at the top. The heading "Are you logging in to Whitworth SSO?" is followed by the instruction "For your security, enter the code displayed on your login screen. Never enter a code from a text or phone call." Below this, there is a section for "Verification code" with three empty input boxes. It also displays the location "Spokane, WA, US" and the time "11:22 AM PST". A redacted user icon is shown. At the bottom, there are two buttons: "Verify" and "I'm not logging in".

If you do not use the DUO app, you can choose more options on the browser window and select the option that works for you

The browser interface shows a "Back" link at the top. Below it, the heading "Other options to log in" is followed by three options: "Duo Push" (Send to "Android" (*****-1694)), "Duo Mobile passcode" (Enter a code from the Duo Mobile app), and "Bypass code" (Enter a code from your IT help desk). Each option has a right arrow. At the bottom, there are links for "Need help?" and "Secured by Duo".

Once you have successfully entered in your code you will see the final window and then your SSO website
